 15 Cozy Cabin Ln Mouth of  
Wilson, VA 24363

Hello, we're Josh and Noelle. We're based in Raleigh, NC, but you may find us at Highland Hideaways more often than not. I work as a Network Engineer, while Noelle is a Cardiac Sonographer.

In 2021, we purchased Rumple's Retreat and have been working tirelessly to expand Highland Hideaways ever since. We both love to tinker, which led to the creation of an arcade in early 2022. We renovated, built, or upgraded all of the games in the arcade and continued to expand our business by adding a theater in mid-2022.

Our passion for building and renovating led us to purchase and renovate Wild Horse Lodge in early 2023. We're thrilled to see how far we've come and are excited to see where our journey takes us next.

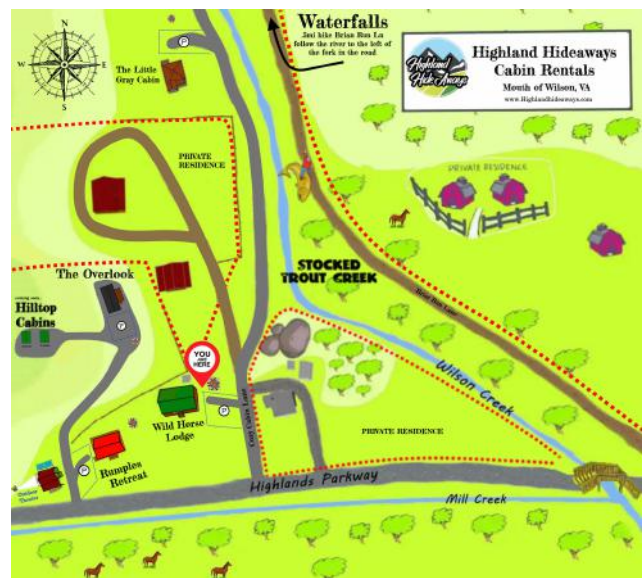

*Enjoy your stay*

# ABOUT THE *Cabin*

Nestled between Rumples Retreat cabin and Wilson Creek, this 2 story cabin features a quaint country home interior, recently renovated with the old charm left intact. Sit out by the fire and enjoy the clean mountain air while relaxing on the front porch or come inside and enjoy a family meal in the spacious country kitchen. This rental provides plenty of room for guests. Located next next to Rumples's Retreat you can book both cabins for larger groups. This rental is conveniently located to take full advantage of all the opportunities that the Grayson Highlands provide. Biking, hiking, fishing, and sightseeing are all within short reach.

Wild Horse Lodge wasn't always what it is today, built in 1947 this house has gone through many changes in the past 75+ years. Originally owned by Blanche Davis, when she passed in 2004 Pat and Reece Sage purchased it and began renting it as "Aunt Blanches House" . It was sold again in 2022 and completely renovated to look like a rustic log cabin. Highland Hideaways has been a passion project for us. The arcade, the outdoor theater, and cabins have been something we've dreamed of building for years, and we're happy to share it with everyone.
